***Made in, by, of and for 'criminal USA; "made of criminals, by criminals, for criminals" AKA "Made in the USA", "Synagogue of Satan that calls itself a nation" – Kumel

And they think inmates are the "bad guys: India and China Slaves [Labor right/abuses international supply chain]

Why does no one care about child slavery? (See also; The Real Q Meditation). People pretend to care about things that are objectively less important than the fact that slavery still exists. The solutions are right in front of us #selfsufficiency #disasterpreparations #cultureofpeace #Bioregionalism #earthfirst #waterislife #sciencenotsilence.

The Colleges/Universities have all the information – so do something with it! We can go to space, build super computers and split atoms; we can solve poverty, war and environmental destruction.

Sadly, a large majority of citizens don't have an education or the attention span/humility/discipline to receive one and they instead live in a magical realm of witch-hunting and superstitions (confirmation bias/racist/sexist/jealous/bigots) operating in a pre-formal/"criminal"/childlike cognitions. This is why Hollywood & Fake news media run the world. If only the sheeple (~60% worldwide claim to "Christian") would follow their shepherd Christ; and learn to Love thy neighbor.

(Exodus 20:1-17, Romans 13:8-10, John 13:34-35, 1 Corinthians 13, 1 Peter 4:8, 1 John 4:7-8; 16 , John 15:13, Matt 25:35-45

Inmate Feedback: "there's a lot of hard work to be done & nobody want's to do it... The Government doesn't want us to be self-sufficient. This is Satan's world" – Kumel

"Cascadia is a Neo-Nazi Organization" (obvious propaganda, but every group has potential

Why does no one care about child slavery? Everyday people pretend to care about things that are objectively less important/dramatic/immoral than the fact that slavery still exists and we continue to support it by buying cheap products from India, China and other countries. #BiodiversityisBiosecurity #Pridewithoutoppression #TheLuciferEffect #cycleofAbuse #PowerDynamics

"dad" with quotes or Unquoted, Amount to the same person DPB, the lack of responsibility for fathers towards family members in today's globalist pseudo communities, although the physical genetic parent, the quotes are used to remind the reader that his father ship is a joke, like most USA community structure (patronizing, dismissive, restrictive, lacking win-win meta-cognition and group collaborative abilities)..

So do not concern yourself over which "dad" is quoted and unquoted, they all reference DPB, the bad doctor (emotionally detached/reserved or superficial) as a fractal of a larger Government of Negligence and Child Abusers, Systematically revealed through an unstable foundation which does not prove or provide that life or history matters.

Under the larger concept of FFF and worst friends ever: Parents bring you into this world, have a responsibility to communicate with children for collective survival, and spiritual evolution, which is the very rights I'm demanding for my own children. But the current Government does not think communication matters and is negligent to the wide variety of citizen's communications/grievances and legitimate day to day concerns.
